Meet our Research Faculty

Dr. Haifa Ben-Romdhane

Assistant Professor – Visiting Faculty

**SORBONNE
UNIVERSITY
ABU DHABI**

Name: Dr. Haifa Ben-Romdhane

Title: Assistant Professor – Visiting Faculty

Department & University: Geography and Planning, Sorbonne University Abu Dhabi

Email: haifa.ben@psuad.ac.ae

Research Interests

Assessment and monitoring of marine and extreme environments using remote sensing and statistical analysis

Application of remote sensing in environmental monitoring and climate change topics

Satellite image processing

Acoustic image processing

Echo sounding and LiDAR Remote Sensing for hydrographic surveying and mapping

Spectral-spatial methods for classification

Automatic change detection

Object-based image analysis

Environmental data analysis and modelling

Natural resources management and sustainable development

Research Collaborations

She has participated in several collaborative research studies, projects and activities along with researchers and scientists from the Atmosphere and Ocean Research Institute, University of Tokyo, Tokyo, Japan, Masdar Institute of Science and Technology, Abu Dhabi, UAE, Environment Agency – Abu Dhabi, UAE, etc.

Publications

Journal and Conference Articles

H Ben-Romdhane, MA Al-Musallami, PR Marpu, TBMJ Ouarda, H Ghedira, 2018. Studying the impact of El Niño 2015-2016 on a coral reef environment in UAE using remote sensing. *International Journal of Remote Sensing*. In press.

H Ben-Romdhane, 2017. Data and infrastructure in marine environment for an efficient management and sustainability. *Marine Data Infrastructure GCC*. 30-31 January 2017. Dubai, UAE.

H Ben-Romdhane, PR Marpu, TBMJ Ouarda, H Ghedira, 2016. Corals & benthic habitat mapping using DubaiSat-2: a spectral-spatial approach applied to Dalma Island, UAE (Arabian Gulf). *Remote Sensing Letters* 7 (8), 781-789.

N Beegum, H Ben-Romdhane, MT Ali, P Armstrong, H Ghedira, 2016. Optical and Radiative Properties of Aerosols over Abu Dhabi in the United Arab Emirates. *Journal of Earth System Science* 125 (8), 1579-1602.

H Ben-Romdhane, PR Marpu, H Ghedira, TBMJ Ouarda, 2016. Mapping of coral reef environment in the Arabian Gulf using multispectral remote sensing. WG VIII/9 - Coastal and Ocean Applications. XXIII International Society For Photogrammetry and Remote Sensing (ISPRS) Congress. 12-19 July, 2016. Prague, Czech Republic.

H Ben-Romdhane, MA Ahmed, PR Marpu, T Ouarda, S Sanchez, H Ghedira, 2016. Change detection in a coral reef environment in the Arabian Gulf using multispectral remote sensing. 13th International Coral Reef Symposium. 19-24 June 2016. Honolulu, Hawaii.

H Ben-Romdhane, PR Marpu, H Ghedira and TBMJ Ouarda, 2016. Mapping of Coral Reef Environment in the Arabian Gulf Using Multispectral Remote Sensing. UAE Graduate Studies Research Conference 2016. 20-22 Mar, 2016. UAEU, Al Ain, Abu Dhabi, UAE.

H Ben-Romdhane, 2016. Remote Sensing & Modelling of coral reefs in the Arabian Gulf: Role of science & research in support of coral reef management & sustainability. Marine Data Infrastructure GCC. 15-16 February 2016. Dubai, UAE.

N Beegum, H Ben-Romdhane, H Ghedira. 2013. Aerosol Direct Radiative Forcing and Forcing Efficiencies at Surface from the shortwave Irradiance Measurements in Abu Dhabi, UAE. AGU Fall Meeting Abstracts 1, 0042.

H Ghedira, H Ben-Romdhane, N Beegum. 2013. Temporal variability of air-pollutants over Abu Dhabi, UAE. AGU Fall Meeting Abstracts 1, 0040.

H Ben-Romdhane, J Zhao, H Ghedira. 2013. Assessment of atmospheric correction models for ocean colour applications through dusty atmospheres: Case of the Arabian Gulf. AGU Fall Meeting Abstracts 1, 1550.
