UNIVERSITY  
ABU DHABI

# Master in Environmental Sustainability Law and Policies

## Master in Environmental Sustainability Law and Policies

How can humans tackle environmental challenges including threats to biodiversity, the degradation of renewable resources such as water or soil, and how do we address the technological risks over security and health?

What are the best socioeconomic and political incentives in business, finance and administration? What are the core concerns and opportunities for governments and businesses in relation to environmental impacts, climate change, natural resource preservation (e.g. water) and waste management? How can we develop skills in sustainability management, green finance, environmental politics and policy analysis?

Every country must now achieve economic prosperity by creating blueprints for sustainability that clearly defines environmental, social and economic goals. Sorbonne Abu Dhabi's students develop detailed analytical skills to scrutinise the

environmental impact of global business and socio-economic forces. They are also encouraged to actively participate in projects and workshops, and maintain constant dialogue with faculty and regional or international experts to explore the most effective strategies to respond to various sustainability challenges in the UAE, GCC and on the international level.

Throughout this degree programme, future leaders in environmental sustainability have the opportunity to maximise their skills and career potential to complement the UAE's rapid and ambitious progress.

# Overview

## Programme highlights

### International recognition

Sorbonne University Abu Dhabi provides the combined experience of Sorbonne University and University of Paris. This rich heritage of joint excellence is now available in Abu Dhabi under the Ministry of Education and is recognised worldwide.

### Enhancing individual & national development

Within the next decade, the UAE is poised to dedicate its focus towards socio-economic sustainability. The curriculum at Sorbonne University Abu Dhabi will be crucial in creating and encouraging a new generation passionate about global business initiatives to complement the country's rapid and ambitious progress.

### Networking

Each class will have a select number of students from different countries. A strict entry selection procedure will guarantee the quality of the degree and will allow you to expand your personal network with high potential peers.

*Employment within the government, political, media and environmental sustainability law fields are lucrative and competitive, as graduates with a specialisation in Environmental Sustainability Law and Policies are highly sought after*

**The Master in Environmental Sustainability Law and Policies is taught in English and covers a total of four semesters across two years. The exclusively designed course schedule includes evening classes, in consideration of students who intend to combine their studies with work.**

## Internship

For nonworking students, Sorbonne University Abu Dhabi recommends students complete an internship. The internship will encourage critical thinking and improve students' reasoning abilities by blending academic theory with real life work experience. Students will benefit from a greater depth of experience working in a professional environment.

The internship also provides an excellent opportunity to gain crucial insights and improve access to various career opportunities in the region and beyond. Students will discover that this collaborative learning process can lead to enduring professional relationships, which will open doors and forge new career paths.

# Assessment & graduation requirements

Throughout the year, students will be evaluated through individual assignments, internship presentations and reports and examinations, which usually take place towards the end of every semester. Attendance at all classes is mandatory and it is important that students are punctual and observe university regulations at all times. In their second year, students will conduct a Capstone research project that will be presented at the end of the programme.

# Career prospects

Employment opportunities within the government, political, media, and environmental sustainability fields are lucrative and competitive as graduates with a specialisation in Environmental Sustainability Law and Policies are highly sought after.

For emerging and experienced professionals, career prospects are remarkably high and vary from senior positions in government, legal and diplomatic institutions, NGOs, legal advisors in the private sector or as consultants for major multinational corporations.

Admission to our postgraduate programmes is selective and competitive with each applicant considered on his/her own merit. Our admissions process ensures that every course has an ideal mix of people with talent, impressive interpersonal skills and a positive attitude.

# Admission requirements

## General entry requirements:

Candidates must complete an online application and upload the following items:
